Dear Community Members, Entiat Alumni and Tiger Fans:

The Entiat PTO/Booster Club has made it a goal to purchase 4 ft. by 6 ft. banners for our gym that show our past accomplishments in our sports programs. Many hours have been spent gathering the dates of league and district championships as well as our successes at the state tournaments. The design of the banners has been created and now we are asking for support in the purchase of these.

Our goal is to raise \$2000.00 to cover the cost of all banners so we are asking for donations to help us reach this goal. Any amount will be appreciated. If you are willing and able to contribute, please send checks to Entiat PTO/Booster Club, P.O. Box 323, Entiat, WA 98822. For questions, contact Stacey Chisam at stacerjones@hotmail.com or Wendi Crutcher at wcrutcher@entiatschools.org.

Thank you in advance for your support!

Family Night

PRINCIPAL'S MESSAGE

Dear Entiat Families and Community Members,

Wow! Despite the crazy weather January dealt us, this month flew by! Our students and staff have been busy taking mid-year benchmark assessments for iReady Reading and Math, and are finishing up Term 3 Trimester 2 assignments. Believe it or not, we are officially at the half-way point in our school year. Parents, I want to continue to encourage you to check your students' grades in Skyward and reach out to teachers if you have questions. Our staff is here to support your students.

In January, STAR Club started on Mondays and Wednesdays from 3 – 4:30 pm to support our Middle and High School students. Many of our teachers are available to help with credit retrieval, offer homework support, and answer questions. Starting February 7th, the last round of Tiger Academy will run on Mondays and Wednesdays from 3 – 4:30 pm also for our elementary and middle school students and will finish March 30th. Students who preregistered for this program will receive confirmation of their participation, as this program has limited seating this Spring. This program offers creative learning opportunities for students in: painting, sewing, board games, homework support, and more. We are thankful to have the resources to offer valuable programs like these to our students.

We also have had many exciting events going on in and around our school. Have you attended one of our many basketball games? How about our incredible STEM Night? We had more than one hundred and fifty people attend and seventeen stations with numerous community vendors that helped make this a huge success! A special thank you to Mrs. Tewell and Mrs. Edwards for all their hard work in planning this great event. Rumor has it another STEM event will be later this spring outside! Your family will find these and additional events coming soon from our ASB, Title I/LAP Programs, and more. I know I can't wait!

Thank you for allowing us the opportunity to serve your children. Please let us know if you have any questions or concerns by calling the office at 509-784-1314 or 509-784-1911.

Warm Regards,

Tracie Husted

Too many absences—excused or unexcused—can keep students from succeeding in school and in life. How many are too many? 10% of the school year—that's 18 missed days or 2 days a month—can knock students off track.

FOR FAMILIES OF MS/HS STUDENTS

Friends Matter

Who your child hangs out with matters when it comes to academics and college-going attitudes. It's probably no surprise that teenagers value their peers' opinion more than those of their parents. Having a group of friends who plan to attend college is more influential on college-going rates than parental encouragement.

- The American Council on Education reports that students are four times more likely to enroll in college if a majority of their friends also plan to attend.
- Another study has shown that social network influences a student's academic achievement. A student whose friends have good grades is more likely to have good grades, too.
- Peer tutoring and mentoring can also positively affect academic achievement. One study showed that students who take part in peer mentoring or tutoring reported improvements in test scores, grade point averages (GPAs), and course pass rates.

Did You Know?

Students who participate in extracurricular activities are more likely to have a higher GPA, have better attendance, and expect to earn a bachelor's degree.

Myth Buster

MYTH: Teens value the opinions of their peers, so parents cannot influence them.

REALITY: Families have a strong influence in their child's planning and decision-making for high school and beyond.

Families can influence their child by setting high expectations and through encouragement and motivation.

For example, when families show that they believe their children are capable of high achievement, their children are more likely to set high goals, work hard, and persist in the face of challenges.

When families place a strong value on learning and hard work, children are more likely to be successful.

2022 SENIORS

Student Checklist

- ☐ Get involved! Try out for a sports team, volunteer, or join a club.
- ☐ Talk with friends and family about your interests, careers, and possible college choices.
- ☐ Take advantage of every opportunity to participate in enrichment programs (on the weekend or in the summer) and field trips.

Family Checklist

- ☐ Encourage your child to get involved in school and community. Suggest sports, school clubs, or volunteer opportunities that reflect your child's interests - it doesn't matter what it is, it's just important to be involved!
- ☐ Get to know your child's friends and their parents. Know who your teen is spending time with and take advantage of opportunities to meet friends and their parents at school or community events.
- ☐ Encourage your children to take the most challenging courses they can handle. Tackling tough courses can give them confidence and prepare them for higher-level high school classes.
