Sexual Harassment of Students Prohibited

This district is committed to a positive and productive education free from discrimination, including sexual harassment. This commitment extends to all students involved in academic, educational, extracurricular, athletic, and other programs or activities of the school, whether that program or activity is in a school facility, on school transportation, or at a class or school training held elsewhere.

Definitions

For purposes of this policy, sexual harassment means unwelcome conduct or communication of a sexual nature. Sexual harassment can occur adult to student, student to student, or can be carried out by a group of students or adults and will be investigated by the district even if the alleged harasser is not a part of the school staff or student body. The district prohibits sexual harassment of students by other students, employees, or third parties involved in school district activities.

Under federal and state law, the term “sexual harassment” may include:

- acts of sexual violence;
- unwelcome sexual or gender-directed conduct or communication that interferes with an individual’s educational performance or creates an intimidating, hostile, or offensive environment;
- unwelcome sexual advances;
- unwelcome requests for sexual favors;
- sexual demands when submission is a stated or implied condition of obtaining an educational benefit;
- sexual demands where submission or rejection is a factor in academic or other school-related decisions affecting an individual.

A “hostile environment” has been created for a student when sexual harassment is sufficiently serious to interfere with or limit the student’s ability to participate in or benefit from the school’s program. The more severe the conduct, the less need there is to demonstrate a repetitive series of incidents. In fact, a single or isolated incident of sexual harassment may create a hostile environment if the incident is sufficiently severe, violent, or egregious.

Investigation and Response

If the district knows, or reasonably should know, that sexual harassment has created a hostile environment, it will promptly investigate to determine what occurred and take appropriate steps to resolve the situation. If an investigation reveals that sexual harassment has created a hostile environment, the district will take prompt and effective steps reasonably calculated to end the sexual harassment, eliminate the hostile environment, prevent its recurrence and, as appropriate, remedy its effects. The district will take prompt, equitable and remedial action within its authority on reports, complaints and grievances alleging sexual harassment that come to the attention of the district, either formally or informally. The district will take these steps every time a complaint alleging sexual harassment comes to the attention of the district, either formally or informally.

Allegations of criminal misconduct will be reported to law enforcement and suspected child abuse will be reported to law enforcement or Child Protective Services. Regardless of whether the misconduct is reported to law enforcement, school staff will promptly investigate to determine what occurred and take appropriate steps to resolve the situation, to the extent that such investigation does
not interfere with an ongoing criminal investigation. A criminal investigation does not relieve the
district of its independent obligation to investigate and resolve sexual harassment.

Engaging in sexual harassment will result in appropriate discipline or other appropriate sanctions
against offending students, staff or other third parties involved in school district activities. Anyone
else who engages in sexual harassment on school property or at school activities will have their
access to school property and activities restricted, as appropriate.

**Retaliation and False Allegations**

Retaliation against any person who makes or is a witness in a sexual harassment complaint is
prohibited and will result in appropriate discipline. The district will take appropriate actions to protect
involved persons from retaliation.

It is a violation of this policy to knowingly report false allegations of sexual harassment. Persons
found to knowingly report or corroborate false allegations will be subject to discipline.

**Staff Responsibilities**

The superintendent will develop and implement formal and informal procedures for receiving,
investigating and resolving complaints or reports of sexual harassment. The procedures will include
reasonable and prompt timelines and delineate staff responsibilities under this policy.

Any school employee who witnesses sexual harassment or receives a report, informal complaint, or
written complaint about sexual harassment is responsible for informing the district Title IX or Civil
Rights Compliance Coordinator. All staff are also responsible for directing complainants to the
formal complaint process.

Reports of discrimination and discriminatory harassment will be referred to the district’s Title IX or
Civil Rights Compliance Coordinator. Reports of disability discrimination or harassment will be
referred to the district’s Section 504 Coordinator.

District/school staff, including employees, contractors, and agents, will not provide a
recommendation of employment for an employee, contractor, or agent that the district/school, or the
individual acting on behalf of the district/school, knows or has probable cause to believe, has engaged
in sexual misconduct with a student or minor in violation of the law.

**Notice and Training**

The superintendent will develop procedures to provide age-appropriate information and education to
district staff, students, parents and volunteers regarding this policy and the recognition and prevention
of sexual harassment. At a minimum, sexual harassment recognition and prevention and the elements
of this policy will be included in staff, student, and regular volunteer orientation. This policy and
procedure, which includes the complaint process, will be posted in each district building in a place
available to staff, students, parents, volunteers and visitors. Information about the policy and
procedure will be clearly stated and conspicuously posted throughout each school building, provided
to each employee and reproduced in each student, staff, volunteer and parent handbook. Such notices
will identify the District’s Title IX Coordinator and provide contact information, including the
coordinator’s email address.

**Policy Review**

The superintendent will make an annual report to the board reviewing the use and efficacy of this
policy and related procedures. Recommendations for changes to this policy, if applicable, will be
included in the report. The superintendent is encouraged to involve staff, students, volunteers and
parents in the review process.
